

# DSS Express

## Easy-to-Use and Reliable VMS

DSS Express is easy-to-use and reliable VMS for single-server installation, which can meet the core requirements of video surveillance in small and mid-sized projects. It can extend the devices by license easily and provide the unified solution with access control, VDP and alarm controller for some small and medium organizations. It is the ideal VMS for small and mid-sized projects, such as residences, shops, factories, casinos, etc.

## Typical Deploy Topology

## Highlights

- **Easy to Use**
  - Integrates all the management operations in the client
  - Auto search to add devices quickly in LAN
  - Access to the DSS Express via DSS Mobile anytime, anywhere
- **High Flexibility**
  - Benefits from vector icon design for different resolution display
  - GPU decoding to monitor more HD cameras
  - Quick switch between edition and operation, layer filter and hotspot management in emap
- **High Reliability**
  - Backup automatically and restore manually in case data lose in abnormal situation
  - Locks the record to keep evidence in case that it could be rewritten

## Application Scenarios

### Residence

- Provides interconnection solution of access control, VDP, alarm controller and video, which will help the guard to respond to abnormal events quickly
- Video intercom can be transferred to mobile, the owners won't miss any guests

### Casino

- Quick operation via NKB & keyboard shortcuts and instant playback help to find the abnormal event quickly
- 64x fast, slow playback and rewind by frame make it easier to find the evidence
